

Multiboost Simplicity Slimline/ Utility: 350L, 450L (Vario)

The Multiboost Simplicity 350L / 450L is the first entry level system in the Multiboost Range. It has been designed to fit through a standard doorway. This makes it very convenient for new or existing properties as it can be easily fitted under a stairs or in a utility room. The slimline range is ideal for 3 - 5 bedroom houses, with poor water pressure and flow and where floor space is limited.

Key Features

- › 3 piece union on outlet (for easy maintenance for crimp piping)
- › 16 amp rated controller with pressure gauge as standard
- › Non-corrosive holding tank (WRAS approved material)
- › Start up pressure adjustable from 0.8 to 2.5 bar
- › Minimal installation requirement
- › Dry run protection on controller
- › Overflow fitted (as standard)
- › Auto restart (4 attempts)
- › Drain-off plug
